

# Proposal One: Update the Earth Palm Card:

**We only have  
one planet**

and it's being  
**ruined by wars**  
that destroy the  
environment,  
wreck lives,  
and waste  
resources,  
leading to  
ever more  
conflict.

It's time to start putting our taxes  
toward the world we want.

It's time to stop paying for  
weapons and arming soldiers.

NATIONAL  
WAR TAX RESISTANCE  
COORDINATING COMMITTEE

Front of Card Edit: Omit QR Box

**Back of Card Edit: Currently Blank, Put the following text on the back:**

## **PLANET vs PENTAGON**

Five percent of the military budget would give us a fighting chance against climate change.

The U.S. now spends over \$1 trillion a year on the military compared to about \$21 billion (in 2016) to address the climate emergency. We should be spending \$55 billion per year to seriously implement a clean energy transition. Less than 3.5% of the military budget—which could be easily found just by eliminating waste—would fill that spending gap.

The U.S. military is the largest user of fossil fuels in the world.  
This needs to stop!

War tax resistance is a concrete action to combat military spending.
