INCREASED PAY MIKE BILL VETO LIKELY, KNOWLAND SAYS

PROPOSAL TO ACT IN "Day or Two," CONGRESSIONAL LEADERS REPORT

WASHINGTON, May 17—Senate Republican congressional leaders today revealed that President Eisenhower would act to override a veto of the tied military pay bill proposed by Senator Knowland, R-Calif., by Friday or next Monday, at the latest. The proposal, under pressure from the House, would increase military pay by 10 or 20% for all ranks and put the average soldier's pay above $100 a month.

Secretary of Defense, Dr. Robert S. McNamara, told Congress today that the military needs a minimum of $75 a month to live on, and that a 20% increase would ensure the military's recruiting and retention needs. The Senate has approved the military pay bill as a three-year package, and the House has approved it for two years. Senate leaders have said they would accept a veto override because they believe the bill will pass the House again and there will be no problem in conference. The President, in administration evidence, has said he is opposed to the bill.
