TAX PLANS JUICEST
ON THE FINAL DAY

Yield to the City Estimated at $1,270,916,338—One Check
is for "Only" $127,006,000

By DAVID ANDERSON

The yield to the City was $11,006,338, a result which was
supposed to be the last of the season. But the City
was still at the beginning of the season, and the
yield was only the last of the season.

Some of the major points in the yield were:

1. The city's yield to the City was $11,006,338, a result which was
supposed to be the last of the season. But the City
was still at the beginning of the season, and the
yield was only the last of the season.

2. The city's yield to the City was $11,006,338, a result which was
supposed to be the last of the season. But the City
was still at the beginning of the season, and the
yield was only the last of the season.

3. The city's yield to the City was $11,006,338, a result which was
supposed to be the last of the season. But the City
was still at the beginning of the season, and the
yield was only the last of the season.

4. The city's yield to the City was $11,006,338, a result which was
supposed to be the last of the season. But the City
was still at the beginning of the season, and the
yield was only the last of the season.

5. The city's yield to the City was $11,006,338, a result which was
supposed to be the last of the season. But the City
was still at the beginning of the season, and the
yield was only the last of the season.
